Profile

Product Growth Lead who delivered 44% YoY growth and 3x conversion improvements through experimentation and CRO across 4 brands at PetSafe. Built hypothesis-driven A/B testing frameworks running 10+ experiments quarterly. Experience owning full-funnel optimization from activation to retention across consumer FinTech and eCommerce products.

Experience

Founder

Feb 2025 - Present

WorthView

Dublin, Ireland

- Designed and ran end-to-end experiments optimizing onboarding activation from 45% to 68% through user research, UX iteration, and behavioral data analysis
- Built growth-focused FinTech product serving 75 active users with 62% weekly retention, using hypothesis-driven approach to feature prioritization and funnel optimization
- Owned full product growth roadmap from acquisition to retention, running rapid experimentation cycles (weekly releases) to improve key activation and engagement metrics

Organic Growth Lead

May 2022 - Present

PetSafe Brands

Dublin, Ireland

- Built and owned experimentation roadmap running 10+ A/B tests quarterly, increasing conversion rates 3x through UX improvements and friction reduction across checkout funnels
- Delivered 44% YoY revenue growth (\$2.5M to \$3.6M) across 4 brands by implementing hypothesis-driven growth strategy, behavioral data analysis, and CRO best practices
- Reduced checkout funnel abandonment by 35% through structured experimentation identifying friction points, partnering with product and engineering teams to ship tests rapidly
- Led cross-functional growth initiatives across product, data, and marketing teams, defining success metrics and translating experiment insights into scalable growth playbooks

SEO Specialist

Jan 2021 - Apr 2022

Nestlé

Lviv, Ukraine

- Increased organic acquisition by 72% for Maggi brand across EMEA markets through data-driven optimization and conversion-focused content strategy
- Collaborated with product, engineering, and brand teams to implement growth experiments across multiple markets, analyzing user behavior to inform feature decisions
