## Profile

Technical Founder who built WorthView from conception to production using Supabase, React Native, and API integrations. Experienced developer using AI tools (Cursor AI) with deep understanding of developer workflows. Product leader with full lifecycle ownership from customer discovery to delivery, measuring impact through data-driven execution.

## Experience

**Founder & Product Manager** Feb 2025 - Present  
WorthView *Dublin, Ireland*

- Owned full product lifecycle from customer discovery to production delivery, building FinTech product using Supabase, React Native, and Twelve Data API with AI-assisted development (Cursor AI)
- Led customer-facing product strategy through direct user engagement, pitching product vision, conducting user research, and iterating based on feedback to drive adoption and measure impact
- Built product from spreadsheet prototype to web app MVP serving 75 active users in 6 months, with iOS release (Feb 2026), demonstrating outcome-oriented execution and technical credibility

**Product Growth Lead** May 2022 - Present  
PetSafe Brands *Dublin, Ireland*

- Owned product roadmap and prioritization for growth initiatives, presenting roadmaps to stakeholders and driving alignment across product, engineering, and marketing teams
- Delivered 44% YoY revenue growth (\$2.5M to \$3.6M) through hypothesis-driven execution, customer discovery, and data-driven decision making across 12 global markets
- Led cross-functional product initiatives from inception to rollout, collaborating deeply with engineering teams on technical implementation and measuring business outcomes
- Built experimentation framework using analytics tools that increased conversion rates by 18%, demonstrating strong analytical thinking and outcome-oriented mindset

**Product Specialist** Jan 2021 - Apr 2022  
Nestlé *Lviv, Ukraine*

- Delivered 72% growth for Maggi brand across EMEA markets through data-driven product strategy and technical implementation
- Collaborated with product and engineering teams to prioritize and ship features across multiple markets, demonstrating cross-functional leadership
